REVIEW REPORT RELATED TO THE INTERIM CONSOLIDATED FINANCIAL INFORMATION

Menderes Tekstil Sanayi ve Ticaret Anonim Şirketi
Board of Management
İzmir

Introduction

1. We have reviewed the accompanying condensed consolidated financial statements of Menderes Tekstil Sanayi ve Ticaret Anonim Şirketi (the Company) as of 30 June 2016, which comprise the statement of consolidated financial position and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows with the summary of the important accounting policies and other explanatory notes for the six-month-period then ended. The management of the Company is responsible for the preparation and fair presentation of these interim financial information in accordance with Turkish Accounting Standards. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

2. We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim consolidated financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Turkish Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review on the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Group's as of 30 June 2016, and of its financial performance and its cash flows for the six months then ended in accordance with the financial reporting standards endorsed by the Turkish Accounting Standards.

MENDERES TEKSTİL SANAYİ VE TİCARET ANONİM ŞİRKETİ
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED AT
30 JUNE 2016

(Currency - Turkish Lira ‘TRY’ unless expressed otherwise.)

Tangible assets are carried at cost less accumulated depreciation. Depreciation is provided on restated amounts of property, plant and equipment using the straight-line basis with prorates method based on the estimated useful lives of the assets. Expenses for the repair of property, plant and equipment are normally charged as an expense.

Economic useful lives of assets approximately are as follows:

| | <u>Year</u> |
|---------------------------------|-------------|
| Land improvements | 10-30 |
| Buildings | 50 |
| Machinery, plant and equipments | 5-10 |
| Motor vehicles | 5 |
| Fixtures and fittings | 10 |

Intangible Assets

Intangible assets are reflected with adjusted cost value according to the inflationary accounting effective as of 31 December 2004 for the entries purchased before 01 January 2005 and acquired cost of entries purchased after 01 January 2005 by deducting the accumulated amortization.

Intangible assets comprise acquired usage rights, information systems, research and development expenses and other identified rights. They are recorded at acquisition cost and amortized on a straight-line based on pro-rata over their estimated useful lives for a period not exceeding between 10% and 20% for a year.

Leasing

Group acquired assets under finance lease agreements and capitalized at the inception of the lease starting from acquired date. Payables to lease are pursued under financial leasing liability in balance sheet. Calculation of minimum leasing payment is to find out current market value as the valid proportion is calculated practically in financial leasing process then it is, otherwise proportion of interest rate of loan is used as discount factor. Expenses of asset acquisition through financial leasing are included in costs. The liability from financial leasing is decomposed into interest rate and the main loan. Expenses of interest rate are calculated with the fixed interest rate and are issued in related periods.

Impairment of Assets

In case of detecting that carrying values of fixed assets fall below the level that can realize / can be gained from this asset in the future due to different events and situations, material and non-material fixed assets are tested in terms of value losses. In the case of being over the value of book value of material and non-material fixed assets realizable value or the value that can be gained from this asset in the future, provision are made for fixed asset value diminution.

MENDERES TEKSTİL SANAYİ VE TİCARET ANONİM ŞİRKETİ
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED AT
30 JUNE 2016

(Currency - Turkish Lira ‘TRY’ unless expressed otherwise.)

• **Social Insurance Premium**

Group, pays social security contribution to social security organization compulsorily. So long as the company pays these premiums, it has no liability. These premiums are reflected as personnel expenses in the period in which they are paid.

Taxes

Taxes on income for the period comprise current tax and the change in the deferred taxes. The charge for current tax is based on the results for the period as adjusted for items which are non-assessable or disallowed. It is calculated using tax rates enacted by the balance sheet date. Deferred tax is accounted for using the “liability” method in respect of temporary differences arising from differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax basis used in the computation of taxable (statutory) profit. Deferred tax is accounted by temporary differences between the values of assets and liabilities in financial statements using “liability method” and the values of financial statements for the legal purpose. Deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction which affects neither the tax profit nor the accounting profit. Net deferred tax assets created from term differences deducted in proportion as tax allowances in conditions of there is no certain information for the coming periods.

Accounting Estimates

During the preparation of financial statements, the Company management is required to disclose the carrying amount of value of the assets and liabilities stated in the financial statements as of the balance sheet date and to give explanations regarding off balance sheet liabilities, and to provide assumptions that might affect the totals of income and expense realized during the period. However, actual results may vary from these results.

Provisions, Conditional Liabilities and Conditional Assets

Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Conditional liabilities and conditional assets

Transactions that may give rise to contingencies and commitments are those where the outcome and the performance of which will be ultimately confirmed only on the occurrence or non occurrence of certain future events, unless the expected performance is not very likely. Accordingly, contingent losses are recognized in the financial statements of Group if a reasonable estimate of the amount of the resulting loss can be made. Contingent gains are reflected only if it is probable that the gain will be realized.

Investments Subject to Equity Pick-up Method

Equities valued with equity pick-up method are carried at their initial acquisition cost. This amount is accounted by equity pick-up method by restating subject to Group accounting policies calculating the share of company from the net assets.

MENDERES TEKSTİL SANAYİ VE TİCARET ANONİM ŞİRKETİ**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED AT 30 JUNE 2016**

(Currency - Turkish Lira 'TRY' unless expressed otherwise.)

NOTE 32 – FINANCIAL INSTRUMENTS (FAIR VALUE DISCLOSURES AND HEDGE ACCOUNTING DISCLOSURES)

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists. The estimated fair values of financial instruments have been determined by the Group using available markets information in Turkey and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

The following methods and assumptions are utilized for the current values of financial instruments which are predictable in practice:

Financial Assets

Monetary assets for which fair value approximates carrying value:

- Balances denominated in foreign currencies are converted at period exchange rates.
- The fair value of certain financial assets carried at cost, including cash and cash equivalents are considered to approximate their respective carrying amounts in the financial statements.
- The carrying value of trade receivables, net of allowances for possible non-recovery of uncollectible are considered to approximate their fair values.

Financial Liabilities

Monetary liabilities for which fair value approximates carrying value:

- The fair value of short-term bank loans and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature.
- The fair values of long-term bank borrowings, which are denominated in foreign currencies and converted at period exchange rates, are considered to approximate their carrying values.
- The carrying amount of accounts payable and accrued expenses reported in the financial statements for estimated third party payer set TRY amounts approximates its fair values.

Capital Risk Management

In capital management, the Company aims at enhancing profitability while keeping a reasonable leverage, on the other hand rendering sustainability in its operations.

The Company follows capital by using debt to equity ratio. This rate is found by dividing net debt to total equity. Net debt is calculated by deducting cash and cash equivalents from total payable amount (as shown in balance sheet, trade and other payables and loans). Total capital, as shown in balance sheet, is calculated by adding up equity and net debt.

As of 30 June 2016 and 31 December 2015, net debt / total equity ratio is as follows:

| | 30.06.2016 | 31.12.2015 |
|-----------------------------|-------------------|-------------------|
| Total debts | 543,431,778 | 456,012,810 |
| Liquid assets | (10,808,264) | (66,387,256) |
| Net debt | 532,623,514 | 389,625,554 |
| Total equity | 313,339,390 | 295,870,950 |
| Total capital | 845,962,904 | 685,496,504 |
| Net Debt/Total Equity Ratio | 63% | 57% |
